

To The Happy Jack People,

I have to let you know how great, I feel, your products are. I raise Chinese Shar-Pei, which as you probably know, are very prone to skin problems.

After giving our ex vet over \$400<sup>00</sup> in 2 months we tried every thing known to help our new pup. We came across your products & in 2 yrs. have never turned to something new.

Mainly, we use your many products & skin balm. Within days we see great results. The skin balm is particularly great. Within a week it changes rashey, rough skin into smooth clear supple skin with new hair growth.

We do find your products hard to find here, in Clarksville, Tenn. Usually only the Farmers Stores & Co-ops sell them & they are usually out of them.

I only hope we can find your products in Mich. as we are moving there within the next 9 months.

Let me add, in closing, that I will & do recommend your products to all my pet owning friends & family & to my puppy customers.

Thank you!

Deborah Turner
