Dear Sir:
Just dropping you a line and
an order for more milkade as I've raised
15 litters of field Champion English Setters
with it and wouldn't raise one without
it. The females always have a good
supply of milk and I always end up
with a beautiful litter of healthy
happy puppies. I also use your
warming pills and find that they
do the job real well. Keep up the
good work and I highly recommend
your products to everyone who owns
or breeds hunting dogs

Thank you,

M. J. Quilley
