

## **COMMENTS ON HAPPY JACK PAD KOTE**

*By Jim Exum, Founder, Happy Jack, Inc.*

If I told others how long I worked on the formulation of Pad Kote they wouldn't believe it. If they did believe it they would deem me crazy. Anyway, it was a long time before I reached the formula that would do the job on the varied conditions I desired. Raw tender pads, fungus spots on the body and/or feet, open wounds so often snagged on hunting dogs. Ill never forget the night I went to my kennel to observe a friend's dog that had been treating for several days with the latest Pad Kote formula. His problem was an advanced fungus condition which rendered his right front foot almost rotten. We had been applying Pad Kote twice daily. The minute I looked at the remarkably improved condition of that dog's foot I knew my work on Pad Kote was done. I rushed home, awakened my wife and exclaimed "Honey, I've got it!" Her sleepy reply was curt, "Thank God." Pad Kote indeed does have it for varied most or dry spots, old and new sores, tender or festered feet as well as open wounds. I often refer to Pad Kote as my "Unbelievable".

No matter what else has failed I urge you to try it.
